PRODUCT DESCRIPTION

Take your party to the next level with Silent Disco headphones that provide an amazing music experience without the noise. These high-tech headphones are the perfect choice for anyone who wants to enjoy music at a party, club, or outdoors, while keeping your surroundings undisturbed.

Equipped with a powerful 600mAh Li-Po battery, the headphones provide up to 8 hours of uninterrupted entertainment, so music can play all night. The headphones support Stereo mode, which guarantees high quality sound with rich bass and clear treble.

The Silent Disco headphones operate in three operating frequencies, which allow users to choose between three different music channels. You can tune into CH#1 (863.3 MHz, Red), CH#2 (863.9 MHz, Green) or CH#3 (864.9 MHz, Blue), giving partygoers the option to listen to the soundtrack of their choice. Thanks to UHF/RF technology, sound transmission is stable and sound quality is reliable.

The frequency response of these headphones is from 20 to 15,000 Hz, allowing you to enjoy the full spectrum of sounds - from deep bass to the highest tones. The 40mm drivers, made of mylar, guarantee precise sound reproduction, preserving its naturalness and dynamics. The high signal-to-noise ratio of ≥75dB ensures clear and crisp sound without distortion, which is crucial for a great musical experience.

Silent Disco headphones are not only a tool for partying, but also a guarantee of high sound quality and reliability. They will make any party an unforgettable event, and allow participants to enjoy the music on their own terms, in the style of their choice. Rent from SQM Rental House!
