PRODUCT DESCRIPTION

The IIYAMA LH7575UHS-B1AG monitor is the ideal solution for businesses looking for professional digital signage solutions. With a 75-inch 4K UHD (3840x2160 pixels) screen, this model provides an incredibly detailed image that will delight audiences, whether used in meeting rooms, trade shows or educational environments.

With anti-reflective coating and a brightness level of 500 cd/m², the LH7575UHS-B1AG monitor will perform well in bright rooms, eliminating unwanted reflections and providing excellent visibility even in difficult lighting conditions.

The monitor features IPS technology, which guarantees wide viewing angles and accurate colour reproduction, crucial for professional presentations. In addition, the robust design with protective panel ensures durability and damage resistance, making it an ideal choice for public use.

The LH7575UHS-B1AG supports 24/7 operation for uninterrupted use in digital signage applications. The built-in Android operating system and a wide range of connectors, including HDMI, DisplayPort and USB, ensure ease of integration with a variety of systems, as well as remote content management.

The IIYAMA monitor is designed to minimise energy consumption, as evidenced by its energy efficiency certification. This is not only environmentally conscious, but also financially beneficial due to lower running costs.

The IIYAMA LH7575UHS-B1AG is a monitor that combines superior image quality, reliability and functionality to meet the needs of the most demanding business users. It is an excellent investment that will raise the standard of any space in which it is used.
