APPLE MACBOOK PRO 14" (A2992, 2023)

TECHNICAL DETAILS

Category	Laptop
Diagonal (in)	14.2
Resolution (px×px)	3024x1964
Max. brightness (cd/m²)	1600
Battery	Li-Po 72.4Wh non-removable battery
Processor	11-core CPU Apple M3 Pro
Memory	18GB RAM
Storage	512GB SSD
Graphics	14-core GPU Apple M3 Pro
Refresh Rate (Hz)	120
Connectors	1 x 3.5mm jack (Phones output)
Connectors	1 x MagSafe 3
Connectors	MicroSD card slot
Connectors	3 x Thunderbolt 4
Connectors	1 x HDMI (Output)
Connectivity	Bluetooth 5.3
Connectivity	WiFi 6E (802.11ax)
Width (mm)	312.6
Height (mm)	15.5
Depth (mm)	221.2
Net weight (kg)	1.61
Set contains	1 x USB-C - MagSafe 3 cable (2m)
Set contains	1 x USB-C 70W power adapter

PRODUCT DESCRIPTION

The 14-inch MacBook Pro (model A2992) 2023 combines performance and mobility, ideal for professionals looking for a versatile work tool. Powered by the Apple M3 Pro 11-core processor, which combines 5 high-performance cores and 6 power-saving cores, it delivers the perfect combination of computing power and energy efficiency. Combined with 18GB of unified RAM, this laptop easily handles multitasking and the most demanding applications.

Thanks to the 512 GB super-fast SSD, the system boots in a flash and applications and large files are processed smoothly. The 14.2-inch Liquid Retina XDR screen with a resolution of 3024 x 1964 pixels, supporting ProMotion technology with an adaptive refresh rate of up to 120 Hz, offers exceptional image quality with deep blacks and vivid colours, which is crucial for multimedia creators.

With Dynamic Caching technology on the M3 Pro graphics chip, the laptop maximises memory usage in real time, which significantly improves performance in advanced applications and games. The device also supports hardware ray tracing and grid shading acceleration, making it an ideal choice for content creators and gaming enthusiasts.

The MacBook Pro features three Thunderbolt 4 ports that offer high-speed data transfer, charging and video output, as well as an HDMI port that supports external displays up to 8K at 60Hz. In addition, the MagSafe 3 offers fast charging - up to 50% in just 30 minutes.

The laptop weighs just 1.6kg, which, combined with its high performance, makes it ideal for those in need of a mobile and powerful workstation. With a battery that provides up to 18 hours of battery life, the 2023 MacBook Pro 14' is a reliable companion in any situation.
