PRODUCT DESCRIPTION

The HIKVISION DS-D2055LU-Y seamless monitor is a state-of-the-art solution designed to create impressive video walls in environments requiring high image quality. The 55-inch device offers a resolution of 1920×1080 pixels and a brightness level of 500 cd/m², providing clear and vivid images ideal for both surveillance centers and business presentations.

The monitor features an ultra-narrow bezel of 3.5 mm, allowing for virtually seamless merging of multiple screens into one large display area. The LED backlight technology used guarantees uniform brightness across the screen, eliminating shadows at the edges. The monitor is factory calibrated for color and brightness uniformity, ensuring image consistency in any environment.

The unit supports 4K signal input and allows automatic connection of up to 30 screens via HDMI interfaces, making it a flexible solution for extended installations. In addition, the monitor offers the ability to switch between three image modes: Monitoring, Meeting and Movie, adapting to different usage scenarios.

Thanks to its metal housing, the monitor is resistant to radiation and electromagnetic interference, guaranteeing stable operation around the clock. The ability to mount on the wall and the availability of modular brackets make installation easy and customized. Rent the HIKVISION DS-D2055LU-Y monitor at SQM Rental House.
