

PRODUCT NAME

24" APPLE IMAC 4.5K (A2874, 2023)

DESCRIPTION

The Apple iMac 2023, model P/N A2874, offers a unique experience in the all-in-one computer category, combining modern design with powerful technical performance. Featuring a 24-inch 4.5K Retina display with a resolution of 4480 × 2520 pixels and a brightness of 500 nits, it delivers pristine images with a wide P3 color gamut and True Tone technology, making it ideal for professionals involved in graphics, video editing or design. At the heart of the device is the Apple M3 processor, which integrates an 8-core CPU, 8-core GPU and 16-core Neural Engine, offering impressive performance and support for advanced tasks such as ray tracing and 4K video editing.

The device has 8GB of unified RAM and a 256GB SSD, ensuring smooth operation and fast access to data. With four ports, including two Thunderbolt / USB 4 and two USB-A 3.0, users can connect a wide range of peripherals. The iMac also supports communication via WiFi 6E and Bluetooth 5.3, providing stable and fast wireless connections. The audio system includes six high-fidelity speakers that support Spatial Audio and Dolby Atmos, and three studio-quality microphones with directional beamforming, making the computer ideal for video conferencing and recording.

A Magic Keyboard, Magic Mouse, power cable and USB-C - Lightning cable are included, so you can get started right away. The iMac has been designed with ecology in mind, incorporating recycled
