

PRODUCT NAME

LG 40UB800V

DESCRIPTION

LG 40UB800V is a 40-inch 4K Ultra HD TV that offers fantastic picture quality. The matrix containing over 8.3 million pixels and energy-saving, backlit LEDs guarantee full richness of details on the screen.

Thanks to the Virtual Surround Plus function, 40UB800V guarantees extremely realistic and spatial sound effects. The HbbTV standard, which is a hybrid of regular TV signal broadcasting and content provided via the Internet, enables their integration while creating interactive TV applications during live broadcasts.

The LG 40UB800V is a TV with Skype video calling and streaming media via LAN options. The TV set is equipped with three HDMI connectors (including ARC and MHL), three USB ports, as well as a CI card slot (PCMCIA) and RJ45 port. The whole is complemented by an advanced Magic Remote.

The equipment can be mounted on a wall or any monitor bracket compatible with the 200x200-millimeter spacing of mounting holes in the VESA standard. When mounting on a base, it is worth remembering that the height and depth parameter of the device increases, by analogy, to 568 and 217 millimeters.

SQM Rental House encourages you to rent a versatile, 40-inch LG 40UB800V TV!

SPECIFICATIONS
