

PRODUCT NAME

P1.29 / MODULED / CABINET

DESCRIPTION

P1 pixel pitch? No problem!

SQM Multimedia Solutions offers the moduLED screen - a state-of-the-art LED display with a pixel pitch of 1.29 mm, designed for high precision image reproduction and versatile use in indoor spaces. The screen with fantastic pixel spacing is adapted for installation with 55 and 62 mm thick exhibition system frames, further increasing its versatility.

Thanks to its technology based on SMD1010 LEDs, the module offers exceptionally smooth tonal transitions and a wide viewing angle, which, combined with its ability to be mounted in frames, makes it ideal for trade show booths.

With a resolution of 384x384 pixels at a relatively small screen size, the P1.29 moduLED features excellent image sharpness even from a short distance. The screen also offers support for HDR technology, which enhances image realism with a wider tonal range.

An efficient power management system and advanced cooling technology ensure stable operation, which is especially important for applications requiring long-term use. The full front service access feature reduces repair time, which lowers operating costs.

DESCRIPTION (CONTINUED)

With its performance and flexibility to adapt, the P1.29 moduLED provides an innovative solution for multimedia professionals looking for a reliable tool to create impressive visualizations. Rent a screen at SQM Rental House!

SPECIFICATIONS

Pixel pitch (mm)	1.29
Technology	True Black SMD1010
Technology	X-GOB / CCT
Cabinet width (mm)	496
Cabinet height (mm)	496
Cabinet depth (mm)	58
Resolution (px×px)	384x384
Max. power consumption per cabinet (W)	140
Viewing angles (h/v; °)	160/160
Maintenance	Front / Rear
Refresh Rate (Hz)	3840
Max. brightness (cd/m²)	1000
Working Environment	indoor
Net weight (kg)	9.5
