

PRODUCT NAME

P6.25 TRANSPARENT LED FOIL / 1000X400MM

DESCRIPTION

The Transparent LED Display P6.25 is a high-quality, ultra-thin screen designed for creative multimedia installations at trade shows, exhibitions, and other large-scale events.

Equipped with a flexible P6.25 mm pixel pitch matrix and over 90% transparency, it perfectly adapts to various booth setups. It can easily be curved to create striking, immersive displays that capture attention. The installation, thanks to its self-adhesive backing, ensures reliable performance, which is crucial in the dynamic atmosphere of trade shows where time and efficiency are key.

Rent the Transparent LED Display P6.25 at SQM Rental House and make your booth stand out at trade shows with innovative, high-quality multimedia visuals that engage your audience!
