PRODUCT DESCRIPTION

The Scarlett 4i4 (3rd Gen) is a high-quality USB audio interface from Focusrite, perfect for musicians, content creators, and producers. It features two Scarlett mic preamps, multiple input options (mic, line, instrument), and four balanced outputs. With 24-bit/192 kHz converters, it delivers crystal-clear, studio-grade sound.

Equipped with Air mode, illuminated gain halos, and loopback functionality, it's ideal for both recording and streaming. The bundle includes Ableton Live Lite, Pro Tools Intro, and MIDI I/O for seamless integration with external devices.

Rent the Scarlett 4i4 (3rd Gen) and enhance your audio production today!
