

**PRODUCT NAME****P2.9 LED FLOOR YESTECH****DESCRIPTION**

The Yestech P2.9 Outdoor is a high-brightness LED screen with a 2.9 mm pixel pitch, designed for professional outdoor and indoor applications such as events, exhibitions, and live shows. Each cabinet features a resolution of 168×168 pixels, built from 4 modules (250×250 mm each), and weighs only 6.3 kg — making it lightweight and easy to handle. For LED floor applications, the screen is fitted with a transparent acrylic protective cover that safeguards the LED surface and allows safe pedestrian traffic across the display during events.

With brightness options up to 3800 nits and a wide 160° viewing angle, it ensures excellent visibility in all lighting conditions. High contrast (up to 10800:1) and dense pixel layout (112,896 dots/m²) guarantee vivid, detailed image reproduction. Thanks to its modular design and energy efficiency, the P2.9 is ideal for both rental and fixed outdoor and indoor installations.

SPECIFICATIONS

Pixel pitch (mm)	2.9
Cabinet Resolution (WxH)	168 x 168
Control system	Nova
Module Resolution (WxH)	84 x 84
Module size (mm)	250 x 250
Module Quantity per Cabinet (WxH)	2 x 2
Cabinet size (mm)	500 x 500 x 72
Cabinet size with cover (mm)	500 x 500 x 77
Cabinet Area (m2)	0.25
Weight (kg/Cabinet)	6.3
Pixel Density (dot/m2)	112896
White Balance Brightness (nit)	3500-3800
Horizontal/Vertical Viewing Angle (°)	160/160
Contrast Ratio Uniformity	10800:1
Power Consumption (W/m²)	700±15%/235±15%
Working Voltage	AC100~240V
Framge Frequency (Hz)	50/60
IP Grade	Front IP65 Rear IP54
Product Certification	CE,FCC,ETL
