### PRODUCT DESCRIPTION

The Yestech P2.9 Outdoor is a high-brightness LED screen with a 2.9 mm pixel pitch, designed for professional outdoor and indoor applications such as events, exhibitions, and live shows. Each cabinet features a resolution of 168x168 pixels, built from 4 modules (250x250 mm each), and weighs only 6.3 kg — making it lightweight and easy to handle. With brightness options up to 3800 nits and a wide 160° viewing angle, it ensures excellent visibility in all lighting conditions. High contrast (up to 10800:1) and dense pixel layout (112,896 dots/m<sup>2</sup>) guarantee vivid, detailed image reproduction. Thanks to its modular design and energy efficiency, the P2.9 is ideal for both rental and fixed outdoor and indoor installations.
