## PRODUCT DESCRIPTION

The 42-inch NEC MultiSync V423 is a professional Public Display monitor with S-IPS panel and LED backlight, which supports Full HD (1920x1080) resolution with a brightness of 450 nits. The device is equipped with an anti-reflective U-Touch multi-touch device, which offers 6 simultaneous points of touch on the monitor. The thin device is powered by a USB port (plug and play type) and has very low energy consumption.

Available for rental at the SQM Multimedia Support V423 monitor has a programmable light sensor that adjusts the TV's parameters to the brightness of the environment. Adjustable fans allow for effective temperature control and heat management - this increases the operating time of the device and ensures reliability. NEC V423 is equipped with one HDMI 1.3, DisplayPort and DVI-D input. It also has an OPS slot.

The spacing of mounting holes in the VESA standard is 300x300mm. The manufacturer recommends M6 screws.

The monitor is adapted to work 24 hours a day, 7 days a week. It is an ideal, interactive solution in retail signage installations.
