PRODUCT DESCRIPTION

CIRCLE LCD TOUCHSCREEN is an unconventional, circular 23.6-inch touchscreen with a 1:1 aspect ratio, designed for original interactive installations, events, trade shows, presentations and Digital Signage applications. Its circular format moves away from the standard rectangular screen shape, creating a more distinctive and attention-grabbing installation. The screen offers a resolution of 1280×1280 px, a brightness of 700 nits and wide $178^\circ/178^\circ$ viewing angles, ensuring a clear and easily visible image. Thanks to its 1:1 aspect ratio, the screen is ideal for displaying content specifically designed for unconventional circular formats. CIRCLE LCD TOUCHSCREEN features PCAP capacitive touch technology, allowing intuitive interaction with content. With a response time of 6 ms, the screen provides smooth operation, making it a suitable solution for presentations, interactive applications, games, configurators and installations designed to engage event attendees. Thanks to its compact dimensions of $657 \times 657 \times 45.85$ mm and a weight of 10 kg, the screen can be easily incorporated into various event structures, exhibition stands and wall-mounted installations.
