

P3.9 LED TRANSPARENT TOTEM / MUXWAVE A3-2

TECHNICAL DETAILS

Pixel pitch (mm)	3.91
Resolution (px×px)	256x512
Width of viewable area (mm)	1000
Height of viewable area (mm)	2000
Contrast ratio	9000:1
Transparency (%)	80
Max. brightness (cd/m²)	3000
Color temperature (K)	3000-10000
Width mm (Hanging Up)	1020
Height mm (Hanging Up)	2230
Depth mm (Hanging Up)	75
Width mm (Floor Standing)	1020
Height mm (Floor Standing)	2452
Depth mm (Floor Standing)	500
Protection Level (IP)	IP20
Max. power consumption (W)	865
Power Input	100–240 V AC, 50/60 Hz
Working temperature	-20°C ~ 50°C
Working Environment	indoor
Weight (kg/m²)	6
Set contains	Power cord
Set contains	Remote control

Make your space stand out with the transparent MUXWAVE A3-2 LED totem, designed to display eye-catching content. Its 80% transparency preserves visibility behind the screen, while the lightweight, nearly invisible structure makes animations, product content and promotional graphics appear as though they are floating in mid-air. With a 1000 × 2000 mm display area, a 3.91 mm pixel pitch and a modular design, it can be used both as an impressive standalone totem and as part of a larger multimedia installation. A maximum brightness of 3000 nits and a contrast ratio of 9000:1 ensure a vivid image and intense colours. This makes the screen an excellent choice for trade shows, product launches, conferences, live events and striking scenographic installations. The MUXWAVE A3-2 can be used either as a freestanding LED totem or as a suspended display. The freestanding version can be conveniently positioned in the desired location, while the suspended configuration creates a visually lightweight installation without occupying any floor space. Its modular design allows several A3-2 screens to be connected side by side. A single 1 × 2 m screen can be expanded into a 2 × 2 m, 3 × 2 m or even larger display, adapted to the nature of the event and the content being presented. As a result, the MUXWAVE A3-2 works equally well as a standalone totem or as part of a larger, cohesive multimedia installation.
