PRODUCT DESCRIPTION

The iiyama ProLite P1671HSC-B1 is a portable monitor with a 15.6-inch Full HD IPS screen. Weighing just 0.7 kg and measuring only 12 mm thick, it is easy to take to trade shows, conferences or business meetings. It is a practical choice whenever you need a lightweight second screen for your laptop.

A resolution of 1920 × 1080 pixels and wide 178° viewing angles deliver clear visuals for everyday work and presentations. The matte screen reduces reflections, while Flicker-Free technology and blue light reduction help keep viewing comfortable during extended use.

The monitor features two USB-C ports and a Mini HDMI input. A single USB-C cable can carry the video signal and power the monitor from a compatible laptop, making setup quick and straightforward. Built-in 2 × 1 W speakers provide audio without the need for additional equipment.

The included leather cover protects the screen during transport and doubles as an adjustable stand, allowing you to position the monitor at a comfortable viewing angle. The ProLite P1671HSC-B1 is well suited to use as an additional screen at an event control desk, for presentations or as part of a mobile office setup.
