

GLP WILDWASH 12

TECHNICAL DETAILS

Standard	DMX512
Power (W)	12 diodes x 40
Zoom ratio	1:19
Luminous flux (lm)	5790
Colour rendering index (CRI)	90
Beam angle (°)	3.5 - 54
Light aperture diameter (mm)	225
Dimmer resolution	16 Bit
X-axis - Tilt (°)	270
Dimming curves	Linear, Square and S-Curve
Dimmer shutter (Hz)	3 to 24
Y-axis - Pan (°)	540
Power supply	100-240V AC; 50-60Hz
Max. power consumption (W)	600
Width across yoke (mm)	345
Height (mm)	484
Depth (mm)	264
Protection Level (IP)	IP65
Working Environment	outdoor&indoor
Connectors	1 x DMX (XLR 5-pin, Input)
Connectors	1 x etherCON (Output)
Connectors	1 x DMX (XLR 5-pin, Output)
Connectors	1 x etherCON (Input)
Set contains	1 x Safety rope 0.6m/50kg

Set contains	2 x Hook 500kg Black
Set contains	1 X DMX Cable (5M)
Set contains	2 x Omega brackets
Set contains	1 x cable powerCON TRUE 16A
Net weight (kg)	18.7

PRODUCT DESCRIPTION

GLP WildWash 12 is a compact and highly versatile moving-head wash light, equipped with 12 40 W RGBL LEDs. It delivers a luminous flux of up to 5,790 lumens and a variable zoom range of 3.5° to 54°, providing both a powerful, focused beam and wide, even coverage. Its advanced optical system and excellent colour rendering make it an ideal choice for professional productions where precision and high-quality light are essential. The integrated iQ.Gamut technology ensures precise colour mixing, allowing for both intense, saturated colours and delicate pastel shades. The WildWash 12 also offers individual pixel control and extensive creative effects capabilities thanks to its built-in Pattern-FX engine. With a CRI of 90, it provides natural and accurate colour reproduction, which is particularly important when lighting people, scenery or products. The fixture provides 540° of pan and 270° of tilt, while its IP65-rated housing makes it suitable for both indoor and outdoor productions. The combination of its compact size, high output, advanced colour system and weather resistance makes the WildWash 12 an excellent choice for concerts, festivals, corporate events, outdoor events, live productions and trade shows. Support for DMX, RDM, Art-Net, sACN and GLP iQ.Mesh provides excellent flexibility when working with different control systems. Rent the GLP WildWash 12 moving-head wash light from SQM Rental House!
