Paper tray input	50
Paper tray output	30
Connectors	1 x USB-B
Width (mm)	380
Height (mm)	274
Depth (mm)	112
Net weight (kg)	1.65

### PRODUCT DESCRIPTION

The J110A is a compact size printer of the Hewlett-Packard Deskjet 1000 series that uses HP Thermal Inkjet technology to print in both monochrome and color.

The equipment is very intuitive and easy to use, which is demonstrated by the installation process that lasts only several minutes. The printer supports, i.a., A4 paper size or Letter size, which is popular in the United States. The maximum resolution of printing in color is 4800x1200dpi (in Max DPI mode), and in monochrome 600x1200dpi (in Plain-Best mode). Within a minute, the user is able to print 5.5 monochrome and 4 color pages.

The HP J110A has a tray that holds 50 sheets of paper. The output tray can hold 30 of them.

The user can connect the J110A printer to the computer via a USB 2.0 Type-B interface. The equipment supports two types of toners - Tri-color and Black HP301 (for European countries) and is characterized by high energy efficiency, with a power consumption of 16 watts during printing and less than 3 watts during standby. The device is perfect for home conditions.
