PRODUCT DESCRIPTION

SQM Rental House recommends the integrated 2.2 audio system JBL Cinema Base. The All-in-One soundbase-type device is extremely functional - it serves both as a TV stand as well as an integral part of the home theater, which is responsible for the sound and responds to a TV remote control commands.

JBL Cinema Base has two 3.5" woofers and two full-range 2.5-inch drivers with total power of 240 watts and a maximum sound pressure level (SPL) of 100 decibels.

The speaker is equipped with numerous connectors - USB, which is used for charging and updating the software, digital optical input, analog stereo input, as well as AUX and HDMI output with ARC, through which you can connect to the screen. The soundbase is also compatible with the Bluetooth standard.

Many innovative technologies have been used in the JBL Cinema Base speaker - i.a. Harman Volume, which maintains a constant sound level, or Dolby Digital and Harman Display Surround, which will provide a fantastic, almost cinematic sound experience.

The manufacturer recommends that the maximum depth of the screen stand should not exceed 585mm, with a maximum width of 342mm. A TV no heavier than 68 kilograms and with a diagonal of less than 60 inches is also recommended.
