

LOGITECH Z533 2.1

TECHNICAL DETAILS

Speaker category	PC speaker
Speaker type	Active
Max. SPL (dB; @1m)	97
Frequency range (Hz)	55 ~ 20000 (-10dB)
LF transducer	1 x 5.25"
HF transducer	1 x 2.6"
Nominal coverage (h/v; °)	N/A
Continuous power (W)	60 (30 LF + 2 x 15 HF)
Peak power (W)	120
Connectors	Subwoofer - 3 x 3.5mm jack
Connectors	Subwoofer - 2 x RCA
Connectors	Control unit - 2 x 3.5mm jack
Width (mm)	Control unit - 72
Width (mm)	Subwoofer - 225
Width (mm)	Satellite speaker - 100
Height (mm)	Subwoofer - 265
Height (mm)	Satellite speaker - 170
Height (mm)	Control unit - 55
Depth (mm)	Satellite speaker - 85
Depth (mm)	Control unit - 72
Depth (mm)	Subwoofer - 195
Net weight (kg)	Satellite speaker - 0.525
Net weight (kg)	Control unit - 0.2
Net weight (kg)	Subwoofer - 4

PRODUCT DESCRIPTION

SQM Multimedia Support offers the Logitech Z533 2.1 speaker set, which consists of two satellite speakers, a subwoofer and an integrated control unit.

The satellite speaker consists of one full-range driver with a diameter of 2.6 inches. One speaker has the power of 15 watts. The subwoofer is equipped with a 5.25-inch low-frequency transducer with 30W power. The whole set can reproduce frequencies from 55 Hz to 20 kHz and boasts a maximum sound pressure level of 97 dB.

The rear panel of the subwoofer has five connectors - RCA inputs and a 3.5-mm jack that allow connection to a screen or console set. The other two outputs connect two satellite speakers to the subwoofer. The integrated control panel offers two 3.5-mm connectors that allow you to control the sound level of the external device.

The whole set is characterized by modern design - the satellite speakers are tilted at an angle of 10 °, thanks to which the elegant visual effect is combined with good dispersion. The equipment is perfect as a sound system for any stationary or mobile device with a headphone jack (3.5mm) or RCA.
