PRODUCT DESCRIPTION

SQM Rental House offers a Virtual Reality Kit, which consists of Samsung Gear VR Lite goggles that works in the Oculus environment, a compatible Samsung Galaxy S6 smartphone and a reliable Creative Sound Blaster Blaze headset.

The snow-white VR Lite goggles are hermetic thanks to the solid mount and ensure comfortable gameplay (despite the weight of 318g). They are equipped with a range of intuitive control buttons, gyro sensor, proximity sensor, and accelerometer. According to the manufacturer's specifications, the glasses offer a wide 96-degree field of view. An additional improvement is a MicroUSB port that is located in the goggles, which allows simultaneous VR gameplay and smartphone charging.

The SQM's Samsung VR Kit is also equipped with a Samsung Galaxy S6 phone, which has to be connected to the goggles to enter the 360° world. The S6 features a 5.1-inch Super AMOLED screen with a 2560x1440 resolution (1280x1440 per eye), which guarantees the joy of the virtual world in fantastic QHD quality. The whole is complemented by the great quality Sound Blaster Blaze headphones from Creative, whose clear and spacious sound perfectly matches the excellent quality of the virtual image.
