

PRODUCT NAME

EUROTRUSS BLK-34

DESCRIPTION

Eurotruss BLK-34 is a conical multi-truss corner block that allows you to connect the other straight trusses in six individual directions at an angle of 90° - in any possible configuration.

Weighing 1.75kg, the 290x290x290mm element is made of EN AW 6082 alloy (AlSiMgMn). The T6 structure is characterized by very good anodizing properties, good machinability, and high strength.

The stable corner block has been designed to transfer 100% of the applied load both horizontally and vertically.

Recommended by SQM Multimedia Support Eurotruss BLK-34 is a universal product. It is an essential element when designing multidirectional, complex constructions.

SPECIFICATIONS

Element	Corner
Color	Black
Material	EN AW-6082 T6
Length (mm)	290
Main tube diameter (mm×mm)	50x2
Braces (mm×mm)	20x2
Connection	CS1-CON
Width (mm)	290
Height (mm)	290
Net weight (kg)	1.75
