

PRODUCT NAME

NEC C551

DESCRIPTION

The 55-inch NEC C551 is a monitor that uses LCD technology and works in 1920x1080 Full HD resolution. A very narrow frame, modern design, and super-thin, 45mm construction allow the monitor to easily merge with any environment.

Thanks to the anti-glare panel and excellent brightness of 400 cd/m², the C551 display guarantees excellent quality and ergonomics of presentation - both in a horizontal and vertical orientation. You can also enjoy a perfect picture on the wall - this is possible thanks to VESA mounts with 300x300mm spacing. Great viewing angles guarantee perfect image quality from any position.

The integrated multimedia player enables the presentation of any video, reproduction of images or sounds, and easy management of the presented content. The monitor has 3 HDMI inputs, one DisplayPort and VGA. NEC C551 will meet the needs of both in any conference room, as well as a digital signage screen in a shopping gallery - it will fulfill its role at work 24 hours a day. The monitor has an additional TileMatrix (10x10) function.

SQM Rental House encourages you to check the availability of versatile NEC C551!

SPECIFICATIONS

Panel	AMVA3
