

PRODUCT NAME

IIYAMA TF4637MSC-B2AG

DESCRIPTION

The 46-inch Iiyama TF4637MSC-B2AG is a 1920x1080 Full HD touch screen monitor with a brightness of up to 420 nits. The TF4637MSC-B2AG uses an IPS matrix with anti-glare coating - all this means that the Iiyama monitor presents a picture full of vivid colors, high contrast, large field of view and in great Full HD quality.

The device uses capacitive 12-point multi-touch technology - when a human finger touches the glass, it is detected because the electrical characteristics of the sensor grid significantly change. The coating is also characterized by great durability and scratch resistance. In addition, potential scratches have no effect on the further trouble-free operation of the touch screen.

TF4637MSC-B2AG offers the following video inputs - one HDMI, DVI and VGA each. The monitor is equipped with two 7W speakers and can work both horizontally and vertically. This model uses mounting holes in compliance with the VESA standard - spacing is equal to 400x200mm.

The open-frame Iiyama monitor is also characterized by a solid, smooth housing, without a screen covering bezel - TF4637MSC-B2AG is the perfect solution as an interactive kiosk or an interactive commercial platform. Recommended by SQM Rental House device is adapted to work without interruption for 24/7.

SPECIFICATIONS

Panel	AMVA3
Diagonal (in)	46
Standard	Full HD
Resolution (px×px)	1920x1080
Width of viewable area (mm)	1018.08
Touch points	12
Upper / lower bezel size (mm)	40.92 / 40.92
Height of viewable area (mm)	572.67
Screen aspect ratio	16:9
Left / right bezel size (mm)	40.96 / 40.96
Viewing angles (h/v; °)	178/178
Max. brightness (cd/m²)	420
Width without stand (mm)	1100
Height without stand (mm)	654.5
Depth without stand (mm)	89
Max. power consumption (W)	90
Set contains	Power cord
Set contains	Remote control
Connectors	1 x RS-232C (9-pin D-Sub)

SPECIFICATIONS

Connectors	1 x DVI-I (Input, 24+5-pin D-Sub)
