

PRODUCT NAME

NEC E326

DESCRIPTION

32-inch NEC MultiSync E326 is a monitor with Full HD resolution, equipped with an S-IPS matrix, thanks to which the image is full of details in the highest quality.

E326 with a built-in multimedia player allows for simple and quick transfer of information directly from a USB drive, and through the autostart schedule it is possible to play content at a pre-set time. Thanks to LED backlight technology, NEC E326 is a screen characterized by low energy consumption, and thus offers high reliability and long life of monitor at a low total cost.

Integration with professional systems in public places is possible thanks to the basic RS232 functions, button locks, and IR support. The device is equipped with 3 HDMI inputs, a USB port as well as a 15-pin VGA input.

The spacing of mounting holes (M4) in the VESA standard for the NEC E326 monitor is 100x100mm. The equipment can also be installed on a base - then the height parameter increases 461.1mm, and the depth increases to 255mm.

Available at SQM Rental House NECE326 would perfectly fit in restaurants as well as commercial facilities and factories.
