

PRODUCT NAME

NORTH BAYOU F80B

DESCRIPTION

North Bayou F80B is a desk holder designed for monitors weighing from 2 to 6.5 kilograms and with a diagonal of 17 to 27 inches. The supported spacing of VESA mounting holes are 75x75 and 100x100mm.

The versatile holder allows you to adjust the angle of tilt from -35 to 50°, pan of the main joint by 180°, pan of the joint that connects the first arm with the second by 360°, as well as the roll of the screen by 360° (horizontal or vertical orientation) - all this guarantees full ergonomics of work with adjustment of the screen position to your needs.

NB F80B is mounted to any flat surface (up to 100mm thick) with a mounting bracket. The aesthetic and flexible construction made of aluminum alloy also allows the installation of cables in the base thanks to dedicated guides.

SQM Rental House invites you to check the availability of a solid North Bayou F80B monitor holder!

SPECIFICATIONS
