

PRODUCT NAME

JBL CHARGE 3

DESCRIPTION

6000mAh battery. Two 2-inch transducers. Weight of 800 grams. Charge 3.

SQM Rental House recommends the JBL Charge 3 wireless speaker, which thanks to the IPX7 protection level can be submerged in the water for up to 30 minutes.

The speaker is equipped with a capacious lithium-ion battery, which allows about 20 hours of continuous music playback (according to the manufacturer's specifications). The device allows you to charge external devices via USB (5V/2A) and also has a MicroUSB charging connector (5V/2.3A), a 3.5mm AUX jack and is compatible with the Bluetooth 4.1 standard, which allows you to connect up to three smartphones or tablets. The speaker can also be used as a speakerphone.

Charge 3 is able to reproduce frequencies from the 65Hz-20kHz range, and the signal-to-noise ratio is >80dB. Charging the battery may take approx. 4.5 hours. The portable device will perfectly fulfill its role in any weather conditions and in any environment. The JBL Charge 3 is available in black color.
