

PRODUCT NAME

# BARCO CLICKSHARE CSE-200

DESCRIPTION

The CSE-200 is a wireless audio-video presentation system from Barco that allows you to share data during meetings or conferences. The CSE-200 system allows simultaneous image sharing by 16 people via HDMI 1.2 output. Users can also share data between themselves on laptops (with Windows or macOS systems) as well as on smartphones and tablets (with Android and iOS systems) via the ClickShare App, as well as the AirPlay and Google Cast function.

The set comes with two ClickShare Button devices that, by connecting a USB port to a portable device and then clicking the button, allow you to instantly share media from the laptop screen on the main projection screen.

The maximum output resolution of the device is 1920x1080 pixels at 60Hz. For the user, in addition to the HDMI output, there are also three USB ports (one at the front and one at the back), analog audio jack output (3.5mm), S/PDIF connector and RJ45 port (that supports a 100Mbps connection). The CSE-200 operates at 2.4 and 5GHz frequencies and during regular operation consumes approx. 6W of power.

Barco ClickShare CSE-200 is immediately available from the SQM Rental House!

## SPECIFICATIONS

| | |
|---|---|
| **Operating system** | macOS 10.14/10.15 (Catalina) |
| **Operating system** | iOS 11/12/13 |
