

PRODUCT NAME

APART MASK2-BL

DESCRIPTION

MASK2 is an extremely compact wall speaker supplied by Apart Audio (currently Biamp). MASK2-BL is equipped with a 2.5-inch full-range woofer with a paper membrane. The passive speaker requires an amplifier with a power range of 10 to 110 watts.

The super-compact dimensions of the black MASK2-BL speaker make it be considered as one of the smallest wall speakers. In addition to the unique, miniature design, the speaker reproduces well the frequencies in the 120Hz-20kHz range. The maximum sound pressure is 98 decibels.

The equipment comes with functional mounting brackets, thanks to which the equipment can be set at the most optimal angle. SQM Rental House also offers you the Apart Audio MASK2 speaker in white color.
