

PRODUCT NAME

CANON EF 24-70mm f/2.8L USM

DESCRIPTION

SQM Rental House offers a professional Canon EF 24-70mm f/2.8L USM zoom lens, which is characterized by very high quality and guarantees f/2.8 aperture in the whole focal range. The Luxury series lens provides fantastic image quality, sharp optics and the ability to work in virtually any conditions.

The lens provides very good image quality both in the center of the frame and on its edges. It is also characterized by low chromatic aberration and very efficient autofocus work. The tube is known for its high shock resistance, and the eight-blade, round aperture allows for a smooth bokeh effect.

The Canon EF 24-70mm f/2.8L USM lens is a great complement to any camera from the full-frame EOS line.
