

PRODUCT NAME

MSI GP63 LEOPARD 8RE

DESCRIPTION

GP63 Leopard 8RE is an MSI gaming laptop, which characteristic feature is a 120-hertz refresh rate and 3ms response time of a display. The 15.6-inch screen works on native Full HD resolution (1920x1080) with the possibility of extension to 4K through the Matrix Display function (which supports simultaneous work on multiple screens via HDMI/DP port).

Sixth generation Intel Core i7-8750H processor with 4.1GHz frequency in Turbo Boost mode, high-performance GeForce GTX 1060 GPU, 16GB DDR4 RAM, and Killer E2400 network chip that effectively manages network traffic - thanks to these fantastic components, GP63 Leopard is an ideal solution for players that expect dynamic gameplay at low pings and the best graphics settings.

The MSI SHIFT system finds the golden mean between extreme and economical performances - four Turbo, Sport, Comfort, and Eco modes will allow you to set the device parameters depending on your expectations. The device is quiet even in Turbo mode, all thanks to the MSI Cooler Boost 5 system, which through two fans ensures the highest standard of heat dissipation.

The whole is perfectly complemented by a brushed aluminum housing, ergonomic SteelSeries keyboard with RGB backlight and amazing 3D Nahimic 3 sound technology with Dynaudio stereo speakers. GP63 is also equipped with SD card reader, super-fast USB-C 3.1 and USB-A 3.1 ports.
