

PRODUCT NAME

APART MASK6-W

DESCRIPTION

MASK6-W is a two-way wall speaker from Apart Audio (now known as Biamp) equipped with a 6.5-inch woofer and a 1-inch tweeter that is responsible for high tones. The tweeter is placed in a Vari-throat tube.

Thanks to the wide frequency range, MASK6-W is known for its great sound reproduction - from low, intense bass, through medium tones, to clean, high sounds. The maximum sound pressure level reaches 110dB. Thanks to the 5-degree tilt, the MASK6-W also offers great sound dispersion.

MASK6-W is a passive column, which means it needs a supply power from the amplifier. The rear panel of the speaker is equipped with an M12 mounting socket, which offers considerable diversification in terms of mounting. Apart Audio MASK6-W column is available in SQM Rental House in white and black color.

SPECIFICATIONS
