

PRODUCT NAME

APART MASK6-BL

DESCRIPTION

Apart Audio (Biamp) MASK6-BL is a two-way wall speaker. The device has a 6.5-inch woofer and a 1-inch tweeter, which is placed in a Vari-throat tube.

The MASK6-BL fantastically reproduces low bass, mid and high tones - all thanks to the wide frequency range. The maximum sound pressure level of the column reaches 110dB. The speaker can be tilted within 5 degrees, thanks to which the sound is very well and evenly distributed.

MASK6-BL is a passive speaker, which means it is necessary to connect an amplifier to it. The loudspeaker also has an M12 mounting socket, thanks to which it has many mounting applications. Apart Audio MASK6-BL loudspeaker is also available at SQM Rental House in white color.
