

PRODUCT NAME

INTEL COMPUTE STICK STK1AW32SC

DESCRIPTION

Intel Compute Stick is a portable computer with the size of a pendrive, which when connected via HDMI offers the power of the Intel Atom x5-Z8300 quad-core processor with a frequency of 1.44GHz and 2MB cache memory. Intel STK1AW32SC runs on a 32-bit Windows 10 Home operating system and is also equipped with an integrated graphics Intel HD Graphics, 2 gigabytes of DDR3L RAM memory clocked at 1600MHz and 32GB SSD memory (eMMC), which can be enlarged to 128GB through the available microSDXC card slot. Notebook parameters in a pendrive-size device.

The mini-computer offers a fast USB 3.0 port and a standard USB 2.0. Thanks to the built-in Bluetooth module, it is possible to connect many accessories to the device. The compact size and weight of 60g allow you to carry your computer in your pocket, which will be especially useful during a delegation or conference.

Intel Compute Stick is a fully mobile device with very good components - we encourage you to rent equipment at SQM Rental House!
