

PRODUCT NAME

INTEL NUC MINI PC NUC8i3BEK

DESCRIPTION

SQM Multimedia Support offers the NUC8i3BEK mini-computer from Intel's NUC series. It is characterized by its compact size and high energy efficiency.

The NUC has a built-in dual-core Intel Core i3-8109U processor with a base frequency of 3GHz and Intel Iris Plus Graphics 655. The mini-computer is equipped with 4GB of internal RAM - there are 2 DDR4 slots with the ability to deliver 32GB of memory at 2400MHz. The NUC offers 1 SATA3 2.5" port for installing an HDD or SSD, a 128GB SSD is built-in, as well as an SDXC card reader that is capable of supporting up to 512GB of external memory.

The NUC8i3BEK has up to four, high-speed USB 3.0 ports, HDMI 2.0 output, a Thunderbolt 3 connector, or a combo jack on the front. Connectivity to the computer is also at a very good level, mainly through Bluetooth 5, Intel Dual Band Wi-Fi (802.11ac), or the RJ45 Gigabit Ethernet port.

Very good components are packed into a black, compact minicomputer case, which is also equipped with two built-in microphones.
