PRODUCT DESCRIPTION

Iiyama TF4938UHSC-B1AG is a 3840x2160 Ultra HD touch screen monitor. TF4938UHSC-B1AG with a 49-inch screen has an anti-glare coating and uses an IPS matrix - all this means that the Iiyama monitor has a picture full of vivid colors with great contrast, with a wide viewing angle and, above all, in amazing UHD quality.

The device supports up to 12 touchpoints. For this, it uses capacitive technology - when a finger is placed on the glass, the device detects touch because of the electrical characteristics of the sensor grid change. The 4mm thick glass coating is very durable, scratch-resistant and HID-compliant. In addition, the housing is uniform and smooth, and the bezels don't obstruct the screen.

TF4938UHSC-B1AG has three types of digital video inputs - two HDMI 1.4 and one DisplayPort and DVI. The monitor is equipped with two built-in 8W speakers and works great in both horizontal and vertical orientation.

The TF4938UHSC-B1AG offered by SQM Rental House is an Iiyama monitor from the open-frame series, which can be mounted on the wall through 600x400mm slots in VESA standard. It is a great solution as an interactive kiosk at points of sale or as an interactive, commercial screen. The monitor is capable of working 24/7.
