

PRODUCT NAME

SHOWTEC LED LIGHT 8

DESCRIPTION

LED Light 8 is an LED bar by Showtec, which is equipped with 10-millimeter 240 LEDs - 96 red, 72 green, and 72 blue. Thanks to the division of the bar into 8 sections, it is possible to achieve a great color flow effect, movement effect and chase effect.

The bar has 2/3/4/7/14/26 channels in the DMX512 standard, which allows optimal control via the 3-pin XLR input. The device has a light source with a capacity of 800 lumens in the RGB color system. The viewing angles reach 30 degrees, and the flash frequency is available in the range of 1 to 20 hertz. The dimming level can be adjusted from 0 to 100%.

LED Light Bar 8 is equipped with four control buttons, XLR output/input, and AC power supply port (100-240V). The refresh rate is at 400Hz, and the maximum power consumption is 32 watts. The bar is housed in an aluminum housing. SQM Rental House recommends this product!

SPECIFICATIONS

Standard	DMX512
Diode type	240 x 10mm LED (96R, 72G, 72B)
Luminous flux (lm)	800
Flash frequency (min/max; Hz)	1/20
Material	Aluminium
Beam angle (°)	30
Supply voltage	100-240V AC; 50/60Hz
Max. power consumption (W)	32
Width (mm)	1070
Height (mm)	88
Depth (mm)	65
Net weight (kg)	2.6
