

PRODUCT NAME

FOTON SGF1

DESCRIPTION

Foton SGF1 is a head that works in two planes, which is designed for mounting under the slider and on tripods.

The aluminum construction with ⅜-inch threaded connector allows a maximum load of 6 kilograms - this makes the head compatible with a wide range of tripods.

The upper part of the head is equipped with a quick-release plate with adjustable pressure, which ensures a stable and convenient installation. Smooth operation is ensured by two independent locks.

SQM Rental House encourages you to check the availability of Foton SGF1 head.
