

PRODUCT NAME

RESOLUME AVENUE 6 LICENSE

DESCRIPTION

Resolume Avenue 6 is another version of one of the most popular programs for VJs, which offers full control over the presented media - the user can fully control layers, clips, and effects during live visualization.

Avenue 6 offers over 40 transition effects, over 70 video effects, a mix of video-audio effects, numerous audio effects (including VST), or an unlimited option of applying any effects to clips. The program supports MOV and AVI video files, images in PNG, GIF and JPEG extension, or WAV audio files.

Resolume Avenue 6 has an improved interface that allows you to move selected elements so that the user will perfectly organize the screen according to the preferences and needs.

Library management in Avenue 6 is also much easier - the user can quickly find any searched files - clips, compositions, effects, etc. Thanks to the possibility of color selection of individual clips, layers, and groups, everything is transparent and easily accessible.

Avenue 6 is compatible with Ableton Link, making it easier to synchronize video and audio. The program supports Blackmagic, AJA, and DataPath capture cards. SQM Rental House offers a Resolume Avenue 6 license for 4 computers.

SPECIFICATIONS

Device requirements	4GB RAM or more
Device requirements	macOS X 10.9 or newer
Device requirements	Intel i7 (2.6GHz) or newer
Device requirements	Windows 7 SP1 64-bit or newer
Device requirements	NVIDIA/AMD/Iris Pro with 256MB VRAM or better
