PRODUCT DESCRIPTION

Samsung UE65NU7402U is a 65-inch monitor working in 4K resolution (3840x2160), which displays a crystal-clear image on the VA matrix thanks to the efficient and effective image processor UHD Engine.

UE65NU7402U TV uses many functional technologies, i.a. Dynamic Crystal Color, which is responsible for great saturation and vivid colors, so that every detail on the screen will be sharp and visible. Thanks to HDR, the details are more accurate during light and dark scenery, and UHD Dimming is responsible for matching the right colors, focus parameters and contrast.

The device is equipped with HDMI inputs, CI+ 1.4 slot or USB ports. The Clean Cable Solution allows you to hide attached cables in specially profiled slots so that the slim and elegant design will be emphasized by the aesthetic finish, without visible wires. UE65NU7402U is also equipped with 20W Dolby Digital Plus two-channel speakers, which guarantees great sound quality.

The maximum possible power consumption of 190W underlines the device's energy efficiency in combination with its great parameters. The TV can be hung on the wall thanks to Vesa mounts (400x400mm), and the depth of less than 60mm (without the base) means that Samsung will perfectly match any environment.
