Connectivity	3.5mm jack
Connectivity	WiFi 802.11a/b/g/n/ac
Connectivity	HDMI 2.0a
Width (mm)	95.25
Height (mm)	16.7
Depth (mm)	95.25
Net weight (kg)	0.147

PRODUCT DESCRIPTION

Xiaomi Mi Box S TV 4K is a compact multimedia player that offers a sharp picture in fantastic 4K HDR resolution and speed of 60 frames per second. The device is based on the Android operating system, is equipped with a built-in Chromecast and has the function of voice control via Google Assistant - not only for the Mi Box itself but also for all Smart Home devices.

The player is characterized by almost instant configuration time, stable streaming in great quality and its high performance. In addition to the amazing Ultra HD resolution, the user can experience clear, spatial sound - all thanks to Dolby and DTS technologies.

Xiaomi Mi Box S is fully compatible with many VOD platforms and applications from the Google Play store.

The player has very good hardware parameters, such as the ARM Cortex A53 processor clocked up to 2.0GHz, a five-core Mali 450 graphics processing unit, 2GB of DDR3 RAM, and 8GB capacity on an eMMC flash drive. The user has at his disposal super-fast wired and wireless connectors, i.a. one HDMI 2.0a connector, USB 2.0 type A port and a 3.5mm jack. Mi Box S also supports WiFi 802.11a/b/g/n/ac in the 2.4/5GHz bands and Bluetooth 4.2 module. Connecting external devices to the Mi Box S is not a problem.

Xiaomi Mi Box S's compact dimensions and weight allow it to be placed anywhere without taking unnecessary space. A compact, versatile and reliable multimedia player is available at SQM Rental House immediately.
