LINDY 38049 (4X2 HDMI)

TECHNICAL DETAILS

Category	Matrix switch
Max. resolution (px×px)	4096x2160
Connectors	2 x HDMI (Output)
Connectors	4 x HDMI (Input)
Width (mm)	192
Height (mm)	26
Depth (mm)	85
Net weight (kg)	0.45

PRODUCT DESCRIPTION

SQM Rental House offers a Lindy 38049 matrix switch, which is responsible for splitting the signal from 4 independent HDMI sources to two receivers in 4K resolution.

The switch is equipped with four HDMI 1.4 (HDCP 1.4 compliant) inputs and two HDMI 1.4a (HDCP 1.4a) outputs that allow the distribution of the signal of each source to any of the two receivers.

The maximum supported resolution is 4096x2160 at 30Hz (8-bit color depth with 4:4:4 sampling), 1080p at 120Hz and 1080p for 3D at 60Hz. The maximum color depth is 48 bits with a maximum bandwidth of 300MHz. Supported color standards are sYCC601, xvYCC, Adobe YCC601, and Adobe RGB.

On the front panel, there are two sections with LEDs that inform about the selected source of output. The source can be changed by pressing the button or via IR remote control. Next to the LEDs, there is an EDID selector that allows you to select the appropriate EDID format. The high-quality Lindy 38049 matrix switch consumes a maximum of 5 watts of power and is powered by a 5-volt DC socket.
