Screen aspect ratio	4:3
Projection	Front
Screen width (mm)	1750
Screen height (mm)	1325
Projection surface width (mm)	1700
Projection surface height (mm)	1275

PRODUCT DESCRIPTION

SQM Multimedia Support proposes a manual projection screen with an image size of 1700x1275mm and a 4:3 aspect ratio. Matt White projection surface is designed for front projection.

The 86-inch (2188mm) screen is rolled into a metal cassette that effectively protects the screen surface from dust. The cassette is 70mm wide and 90mm high. The white surface with black frames increases the image contrast. It is also possible to adjust the height of the bottom edge of the screen and lock the screen in any position.
