

## MICROSOFT LIFECAM HD 3000

### TECHNICAL DETAILS

Category	Accessory
Resolution (px×px)	1280x720

### PRODUCT DESCRIPTION

LifeCam HD 3000 is a Microsoft webcam that enables video recording and conversations in HD (1280x720) resolution at 30 frames per second and in widescreen (16:9) format.

Supported in Windows 8, 8.1 and 10 operating systems, TrueColor technology ensures automatic adjustment of a bright and clear image - in practically any environment.

The Microsoft LifeCam HD 3000 camera recommended by SQM Rental House, in addition to very good image quality, also guarantees crystal-clear sound quality - all thanks to the built-in omnidirectional microphone that effectively eliminates acoustic interference.

In order to properly install the camera, an operating system from Windows 7 (or from Mac OS 10.7), 1.5GB of free disk space and a USB 2.0 Type-A connector are required.

We encourage you to rent a functional Microsoft LifeCam HD 3000 webcam!
