

LOGITECH C310 HD

TECHNICAL DETAILS

Category	Accessory
Resolution (px×px)	1280x720

PRODUCT DESCRIPTION

SQM Rental House recommends Logitech C310 HD webcam. It guarantees smooth conversations in HD quality (720p) at a speed of 30 frames per second in a wide-screen format.

A compact camera with a cable length of 1.5 meters is synonymous with good contrast and vivid colors - all thanks to the automatic light correction, which allows you to get a picture of fantastic quality - in virtually any conditions, regardless of lighting. The camera field of view is equal to 60°.

The universal latch used in the Logitech C310 HD is compatible with LCD and CRT monitors, as well as with most laptops.

The C310 HD is also equipped with a microphone that is responsible for noise reduction. The compact equipment will be perfect for computers with the Windows 7 operating system (or newer) and with Mac OS 10.10 (or newer). To properly install the camera, an internet connection and a USB Type-A port are required.

We encourage you to check the availability of a compact camera in our rental!
