

OMNITRONIC GM-150

TECHNICAL DETAILS

Device type	Microphone
Max. SPL (dB; @1m)	N/A
Frequency response (Hz)	50 ~ 16000
THD (%)	N/A
Microphone type	Dynamic
Polar pattern	Supercardioid
Microphone sensitivity (dBV/Pa)	-52 (± 3 dBV/Pa, 2.51mV/Pa, 1kHz)
Microphone length (mm)	455
Microphone diameter (mm)	20
Microphone net weight (kg)	0.27

PRODUCT DESCRIPTION

GM-150 is a compact, dynamic gooseneck microphone provided by the German brand Omnitronic (Steinigke). The 20mm diameter neck is 455 millimeters long.

The device with super-cardioid characteristics operates in the 50 to 16,000Hz frequency band and has a sensitivity of -52dBV/Pa. The output impedance (1kHz) is 600 ohms.

Omnitronic GM-150 is equipped with a three-pin XLR type output, which allows you to connect a dynamic microphone with a dedicated Omnitronic GMTS-100 base. The base is also available in the SQM Rental House.
