PRODUCT DESCRIPTION

P6 is an LED screen that was made in SMD technology. The pixel pitch of 6 millimeters makes the P6 a fantastic solution as an outdoor projection LED screen.

This cabinet is also perfect for large internal presentations. Our LED screen provides great quality of presented content thanks to the 96x96px resolution and maximum image brightness of 4500 nits.

A weight that not exceed 10 kg and an easy way of connecting allows customers to connect modules in a very fast and efficient way, which gives the opportunity to create interesting arrangements. Thanks to the high level of protection (IP65 at the front and IP54 at the back), the P6 cabinet is significantly resistant to bad weather conditions. Thanks to this, you can easily use the device, e.g. during the rainy day.
