

CREATIVE SOUND BLASTER BLAZE

TECHNICAL DETAILS

Category	Accessory
Frequency response (Hz)	20 ~ 20000
Impedance (Ω)	32
Sensitivity	105dB/mW
Transducers	2 x 40mm
Connectors	2 x 3.5mm jack
Net weight (kg)	0.188

PRODUCT DESCRIPTION

Creative Sound Blaster Blaze is a great quality headset that was created with players in mind. They are equipped with two, 40-millimeter neodymium FullSpectrum transducers, which are designed to efficiently reproduce sounds in the frequency range from 20 Hz to 20 kHz. The headphone impedance is 32 ohms and the efficiency measured at 1mW power is 105 decibels.

Sound Blaster Blaze headphones are characterized by high ergonomics, mainly due to the velvet padded ear surface. Everything is complemented by a comfortable and lightweight headband. The headphones are also equipped with a microphone with noise reduction technology that can be disassembled at any time. The microphone's frequency response is 100 ~ 18,000 hertz and their impedance is 2,200 ohms.

Creative SB Blaze is equipped with a remote control that allows you to adjust the volume or mute the microphone. The headphones have two jack connectors (3.5mm).

Creative Sound Blaster Blaze stereo headphones are known for their good bass reproduction. The equipment is available at the SQM Multimedia Support rental.
