of DDR3 RAM. Good parameters of DC111 (MS-B062) are combined with very low energy consumption - average power consumption doesn't exceed 40 watts.

The Wind Box supports dual-screen multitasking - you can connect a second monitor via the HDMI or VGA port, display the image on the projector, or play multimedia on a large TV, which makes the DC111 fully versatile and effective device. In addition, a 3-in-1 card reader and 6 USB ports are available to the user (including two of the 3.0 version).
